

Safety Training Requirements for New Lab Members

For every new lab member please complete the following steps:

1. Each lab member should be added to the [ASSESSMENT](#) lab roster ([UC Personal Protective Equipment Policy](#)): Inform the new lab member that they should log into ASSESSMENT using their UCSB credentials (UCSB NetID and password) and complete the process: manage profile, review the hazard assessment, take the PPE training and print out a voucher. PPE can be collected at Chemistry Storeroom 1432;
2. Request that each lab member take the [EH&S training](#) “*Fundamentals of Laboratory Safety*” (live or online) ([UC Laboratory Safety Training Policy](#));
3. Each lab worker should be given a lab specific safety orientation ([UC Laboratory Safety Training Policy](#)), which should cover emergency preparedness, administrative controls ([Chemical Hygiene Plan](#)) and safe handling of equipment and hazardous operations specific for the lab. Please, use the [Training Needs Assessment Form](#) as a roadmap and to document the lab specific safety orientation.
4. Depending on the research activities, [additional training](#) could apply. E.g. radiation safety, LASERs safety, BSL2 Handling Practices and etc.

Add new lab member to the Assessment roster:
